Hungary switches on its largest battery energy storage system at Dunamenti gas power plant to support grid flexibility near Budapest. MET Group installed a battery energy storage system of 40 MW and a ...

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in ...

As renewable energy adoption accelerates globally, the Budapest power storage power station has emerged as a critical infrastructure project in Central Europe. This article explores its technical ...

Both the energy storage unit and the gas engines play an important role in the regulation of the electricity system through the ALTEO Virtual Power Plant. The gas engines - in parallel - ...

Imagine a giant spinning wheel that stores electricity like a battery - that's flywheel energy storage. The Budapest flywheel energy storage project is making waves in Europe's energy sector, offering a ...

Summary: Explore how super capacitor technology is transforming energy storage in Budapest. Discover applications across renewable energy, transportation, and industrial sectors, supported by ...

With this latest BESS plant which went into operation today, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in ...

The new system, capable of storing and discharging electricity over a two-hour cycle, builds on an earlier 4 MW / 8 MWh demonstrator plant installed by Met in 2022. Together, the ...

In 2024, the company acquired French battery storage developer Comax, and it now plans to expand co-located BESS installations alongside solar power plants across multiple countries.
