What is a lead acid battery?

The Lead Acid Battery is a key item within our extensive Storage Battery selection. Storage batteries come in various types such as lead-acid, lithium-ion, and nickel-cadmium. Each type offers different performance characteristics and applications. A reliable supplier in China can help you choose the right type for your projects.

What are acids and corrosives safety cabinets?

Acids and corrosives safety cabinets are labeled storage containers that safely store acids and corrosives to protect them from hazards and help contain spills that can contaminate worksites. They help prevent the contents from igniting during a fire and feature chemical-resistant coatings to protect surfaces from spills and leaks.
