---

We provide heat pump water heaters, solar water heaters, solar powered air conditioners, etc.

5MWh Container Energy Storage System The 0.5MW/1MWh energy storage system includes one set of 500KW energy storage converter (PCS), 1260KWh battery system, one set of energy management ...

These cabinets are designed for outdoor installations, providing uninterrupted power supply (UPS) for telecom towers, industrial sites, solar farms, and emergency backup systems.

The design of Sandpoint outdoor integrated cabinet energy storage system has independent self-power supply system, temperature control system, fire detection system, fire protection system, emergency ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Engineered for high-capacity commercial and industrial applications, this all-in-one outdoor solution integrates lithium iron phosphate batteries, modular PCS, intelligent EMS/BMS, and ...

EK photovoltaic micro-station energy cabinet is an integrated intelligent energy storage device designed for distributed energy scenarios, providing 10-50kWh multiple capacity options (models: EK-Micro-10 ...

The Photovoltaic Micro-Station Energy Cabinet is a hybrid power compact solution for remote energy and outdoor telecom sites.

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

# Wind-resistant type intelligent photovoltaic energy storage cabinet for emergency command

Highjoule's wind and solar energy storage cabinets can be integrated with home energy systems to provide all-weather renewable energy. The smart lithium battery energy storage system is suitable ...
