What is a fireproof cabinet?

Because of its characteristics of fireproof, explosion-proof and safety, it is also called chemical fireproof cabinet, explosion-proof cabinet and safety cabinet. Today's industry faces more and more dangerous and flammable materials, and its safe handling and storage has become an urgent problem to be solved.

Is Sysbel a safe flammable cabinet supplier?

SYSBEL has been committed to the safe chemical storage industry for more than 13 years. We are leading provider of safety spill and control products in China. Most of our products are certified by CE, FM, ISO and OSHA. At the same time, we have more than 3 factories in China. What conditions should a high-quality flammable cabinet supplier have?

What makes a Safety Cabinet more fireproof?

3. All-welded, double-walled, 1.0-thick steel plate with 3.8cm insulating air compartment makes the cabinet thicker and longer in use; thus the reduced air interlayer makes the safety cabinet more fireproof. 4.

Are flammable cabinets fire resistant?

The answer is yes. The flammable cabinet uses a double-layer fire-resistant steel plate structure, forming an insulating layer with a spacing of 38mm between the two layers of steel plates.
